

RUBA ALKHATIB

Full Stack Developer · UI/UX Designer

Amman, Jordan | +962 79 870 6042 | ruba.alkhatib16@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Computer Science graduate and Full Stack Developer who also designs — I build complete web applications with Laravel, PHP, JavaScript and MySQL, and I design the interfaces for many of them myself in Figma. Working across both sides of a product means I understand how something should look, how it should feel, and how it actually gets built. I care about clean code and clean, user-centered interfaces equally, and I bring a QA mindset that keeps the details right.

EDUCATION

Bachelor of Science in Computer Science

Al al-Bayt University, Jordan | 2021 – 2025

EXPERIENCE

Full-Stack Web Developer Intern | Orange Coding school Jordan Oct 2025 – Feb 2026 | Amman

- Training on full-stack development with React.js, Laravel, PHP, MySQL, JavaScript, HTML, CSS and Bootstrap.
- Built authentication, role-based access control and RESTful API modules; worked in an agile team workflow.

PHP Developer Intern | MenaITech 10/2024 – 02/2025 | Amman

- Developed backend logic and database features for a Warehouse Management System, with attention to clean, usable UI.
- Collaborated with the team on real-time inventory and data-tracking modules.

Peer Tutor & Study Sessions Coordinator | Al-3ahed Team 10/2023 – Present | Amman

- Organized study sessions and prepared clear, structured materials that simplify complex topics for peers.

Data Entry Clerk | The Seventh Pearl Water Company 2021 – 2023 | Amman

- Managed data entry, documentation and record tracking, ensuring accuracy across daily operations.

PROJECTS

Hack Me If You Can — Web Vulnerability Scanner — Python · Flask · Security · Graduation Project

- Built a lightweight scanner detecting XSS and logical vulnerabilities, plus a custom vulnerable app for testing.
- Improved detection accuracy by 35% through enhanced input validation, and integrated NVD/CVE references.

Warehouse Management System — PHP · MySQL · jQuery · Bootstrap · Internship Project

- Built a full-stack inventory system with CRUD operations, real-time stock updates and order handling.
- Designed a clean UI and structured database to keep the workflow simple for warehouse staff.

Kasra — Hedera BNPL Platform — Hedera · Smart Contracts · Node.js · UI/UX · Orange Hackathon

- Built a Buy-Now-Pay-Later platform on Hedera Hashgraph, including store onboarding, wallet transactions and a product marketplace.

Lana ProCare — Skincare Brand Website — UI/UX Design · HTML · CSS · JavaScript

- Designed a premium, elegant UI for a skincare brand in Figma, then built the responsive front end myself.
- Focused on visual hierarchy, product presentation and brand-consistent, high-end aesthetics.

Golden Bakery — UI/UX Design — Figma · UI/UX · Branding · Prototyping

- Designed a warm, modern UI/UX concept for a bakery brand: product catalog, ordering flow and storytelling-led layout.
- Translated brand identity into visual design decisions and an interactive Figma prototype.

Sakan — Student Housing Platform — Figma · UI/UX · Wireframes · Prototyping · Orange

- Designed the full UI/UX flow for a student housing platform: search, filters, property details, and booking.
- Built a consistent design system (components, spacing, type scale) suitable for real-world development handoff.

Hisas — Online Programming Course Marketplace — HTML · CSS · JavaScript · PHP/MySQL · UI Design

- Designed responsive, user-friendly interfaces and built the interface end-to-end alongside authentication and course search/filtering.

Cyber Aware — Cybersecurity Awareness Platform — PHP · JavaScript

- Built an interactive platform teaching non-technical users about phishing and social engineering through quizzes and simulations.

Gold Portfolio Tracker — *React.js · Laravel (REST API) · MySQL*

- Built my first full-stack app from scratch: a dashboard to manage gold assets, track real-time value, and analyze profit/loss.
- Built the frontend in React.js and the backend as a Laravel REST API, connected to a MySQL database.

Carbon Chrome — Car Accessories E-Commerce — *HTML · CSS · JavaScript · PHP · MySQL · Team Project*

- Designed and developed the entire frontend interface: product browsing, category/manufacturer search, and a new-arrivals section.
- Built a responsive, intuitive UI/UX and contributed to backend logic with PHP & MySQL alongside a teammate.

IT CODING — Kids & Youth Learning Platform — *HTML · CSS · JavaScript · Scrum · Team Project*

- Served as Scrum Master and owned the 'Monkey IT Kids' track: gamified learning with avatars and reward points.
- Delivered a live front-end platform teaching Programming, AI and Computer Basics through interactive, question-based formats.

Digital Future Academy — *HTML · CSS · JavaScript · Frontend/UI Design*

- Designed and built my first Arabic-language website end-to-end, applying frontend and interface design skills.

Add New Card — Payment UI — *Figma · UI Design*

- My first UI design project in Figma: a clean, minimal add-card / checkout flow with a light and dark version.

Rose Alwer — Artist Website — *React · UI/UX · Web Design · Freelance*

- Freelance client project: built the official website for a Jordanian soprano and singer-songwriter in React, featuring music, tour dates and contact.

• SKILLS

- **Design:** Figma, UI/UX Design, Wireframing, Prototyping, Design Systems, User Flows, Responsive Design, Branding
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, jQuery
- **Backend & Data:** PHP, Laravel, Python (Flask), MySQL, SQL Server, SQLite, RESTful APIs
- **QA & Tools:** Manual Testing, Bug Reporting, Regression Testing, Trello, Postman, Git, GitHub, Agile/Scrum
- **Soft Skills:** Problem Solving, Communication, Attention to Detail, Time Management, Fast Learner, Teamwork

CERTIFICATIONS & TRAINING

- Full Stack Web Development (HTUX) — 4-month program: HTML, CSS, JavaScript, React, databases
- Oracle APEX Cloud Certified Professional — Extreme Cloud Systems: low-code, database-driven cloud apps
- Piscine Participation & Efforts — 42Amman: 40-day peer-to-peer coding bootcamp (C, algorithms)
- IEEE Xtreme — Global 24-hour competitive programming contest (participated twice)

LEADERSHIP & VOLUNTEERING

- Vice Chair, IEEE AABU (09/2024 – 08/2025)
- Leader, Geeks of IEEE CS (04/2024 – 02/2025)
- Secretary, IEEE AABU (10/2021 – 09/2024)
- Member, Al-3ahed Team (10/2023 – 08/2025)

LANGUAGES

Arabic — Native | English — B2 (Conversational)
